*****Does Your Organization Need Washington Representation?*****

A strategic partnership has been formed with David Jolly, former General Council to Congressman Bill Young, and his firm, Van Scoyoc Associates, the largest independent lobbying firm in Washington D.C. As a registered Washington Lobbyist, I am prepared to represent your special interest. I had the honor of serving in The Florida Legislature with many members of the Florida Congressional Delegation, and have helped members in both The US Senate and Congress to get elected. As colleagues, as friends...they and their staff have always been open to the issues I represent.

"Catch the Waters Wave to Washington!"

*****Does your organization need a lobbyist in Tallahassee?*****

My firm has established state-focused partnerships with three Tallahassee lobbyists, including two legislators I served with in The Florida Legislature: *Secretary Carole Green*, Department of Elder Affairs (2005-2006), and State Representative (1998-2004), of Capitol Strategies Consulting Inc.; *Representative Sandra Murman* (1996-2004), *Speaker Pro-Tempore*, of Barr Murman Consulting; and *Travis Moore* of Moore Relations, who provides vast House and Senate legislative staff background, and years of lobbying experience. We work appropriation and legislation issues, and can be your eyes and ears in tracking/monitoring of topics of interest. If it is a focus on health and human services; nursing home and elder care; affordable housing; transportation, insurance, environment, education, economic development, tourism...you name it...we have the Executive and Legislative Branch experience and contacts to help impact your issue...impact your bottom-line!

"Let's Talk Tallahassee...all issues!"

*****Isn't it time to activate and energize your business political grassroots?*****

Leslie Waters provides energetic and informative political grassroots presentations at conventions, conferences and workshops! GRASSROOTS work!

Regards, *Representative Leslie Waters (1998-2006), Speaker Pro-Tempore*
